Your EES home folder or H drive on Windows can be accessed from any machine on the NMT campus network.

Instructions on how to connect:

**From Windows XP or above**

1. Open My Computer and in the address bar type "\eessamba.nmt.edu"
2. Authenticate as requested
3. You will see a folder labeled named ""
4. This folder is what your "H Drive" would be on a Windows lab machine

**From Mac OSX (10.6 or above)**

1. From the finder menu bar choose Go and then "Connect to server"
2. Type "smb://eessamba.nmt.edu" in the Server Address box then Connect
3. Authenticate as requested
4. Choose the volume named and click OK
5. This is your "home folder" on a mac lab machine or the "H Drive" on a Windows lab machine
