

EES Prospective Students

Welcome!

Thank you for your interest in our department! Earth and Environmental Science at New Mexico Tech is a highly interdisciplinary department that incorporates major programs in Geology, Geophysics, Hydrology, and Environmental Science. Our cutting-edge research programs, national reach, and small institute size provide unique opportunities for both undergrad and graduate students seeking rewarding careers in Earth Science. Please click on one of the below links for more information.

(Please note that most links are not live yet. This currently in a transitional phase. Blue underlined links are live.)

Our undergrad programs

Our graduate programs

Research Areas

Hydrology

Geology

Gary Axen, Peter Mozley, Bruce Harrison, Chloe Bonamici

Petroleum Exploration, Basin Analysis & Modeling

Jolante Van Wijk, Peter Mozley, PRRC

Mineral Exploration

Kierran Maher

Mine Wasting

Soils

Geodynamics

Jolante Van Wijk, Gary Axen

Seismology

Susan Bilek, Glenn Spinelli

Maine Geology and Geophysics

Glenn Spinelli

Geochemistry

Chloe Bonamici, Kierran Maher, Ingar Walder

Cave and Karst

Penelope Boston, Andrew Luhmann

Sedimentology

Peter Mozley, Dan Koning

Geodetics and Earthquake Warning

Ronni Grapenthin

Volcanology

Mt Erebus
